About WACMIC

On January 18, 2013 the West African Capital Markets Integration Council (WACMIC) was inaugurated as the governing body for the integration of West African capital markets. The over-arching objective of the Council is to establish a harmonized regulatory environment for the issuance and trading of financial securities across the region, as well as to develop a common platform for cross-border listing and trading of such securities in the sub-region.

WACMIC comprises the Director Generals of the region's securities commissions and the Chief Executive Officers of the securities exchanges. WACMIC is tasked with designing the policy framework and managing the implementation of the process that will facilitate the creation of an integrated capital market in West Africa. Specifically, the Council is to:
